	Quarter-day Exam Revision per Course	Quarter-day Exam Revision per Course	Half-day Exam Revision per Course
			Recruitment Support

2.2 Explanation of Terms

- *Support Calls* = Each candidate will be given direct contact from Nubis Aviation Training. This contact may change during the period of support and the candidate will be notified accordingly.

Each candidate will be entitled to make specific calls to their direct contact via Zoom online conferencing (or similar) for a duration of approximately 20 minutes per call.

These calls need not be specific to the training material being studied at that time but can also be used for support in other areas, such as (but not limited to); study support, mental wellbeing, stress and time management, recruitment help, etc.

- *One-on-One Training Sessions* = Each candidate will be entitled to specific training sessions that are unique and tailored to the candidate.

The number of training sessions related to the support package chosen and it is the discretion of the candidate when and how these training sessions are carried out. For example, if a candidate is struggling with a particular course, they may opt to use more than one training session per course for clarity of understanding.

Each training session will last a maximum of 40 minutes and will be carried out via Zoom online conferencing (or similar).

- *Exam Revision per Course* = Before every individual module examination, Nubis Aviation Training will support each candidate by having a revision of said course.

This will not necessarily be a one-on-one training session, but rather a standardised webinar per module course. If a candidate is having particular difficulty in any area of a module, this should be raised during the Support Calls or One-on-One Training Sessions.

Quarter-Day = 2 hours exam revision (1.5 hours of training with 30 minutes of breaks split up during the session)

Half-Day = 4 hours exam revision (3 hours of training with 1 hour of breaks split up during the session)

Full-Day = 8 hours exam revision (6 hours of training with 2 hours of breaks split up during the session)

- *Recruitment Support* = As part of the requirements of an EASA AML, each trainee must undergo 3 years of practical experience on EASA registered aircraft. Each candidate will be entitled to review and help of individual CVs, cover letter writing, interview techniques, as well as support with introductions to maintenance organisations and airlines for employment.

Nubis Aviation Ltd will help support each candidate through the recruitment and selection process, as well as an introduction to at least 2 organisations that can facilitate their needs as per EASA regulations. Kindly note that this is also a support function and Nubis Aviation Ltd does not guarantee employment to any candidate.

2.3 Changes to Support Levels

Due to individual needs, the support levels may be exchanged. For example, if a trainee wishes, he/she can exchange 2 support calls for an additional One-on-One Training Session.

- 2 support calls = 1 One-on-One Training session (and vice versa)
- 5 One-on-One Training Sessions = 1 Quarter day Exam Revision (and vice versa)

These changes shall be requested directly via email conformation to the Nubis Training department on a bespoke basis. Upon which, the Nubis Training department will update the trainees account accordingly.

3. SERVICE LEVELS

3.1 Response Times

Nubis Aviation Ltd will commit to providing support Monday through Friday 08:00 - 22:00 GMT/BST, for all matters excluding any official UK Bank Holiday.

3.2 Support Limitations

In order to facilitate support to a high standard, it is also the responsibility of each candidate to assist Nubis Aviation Training in delivering the package requirements as per section 2.2 by submitting a request through the available channels and providing a detailed description of the assistance requested.

To better aid, Nubis Aviation Training in diagnosing and addressing a customer's concern, a clearly written description of the problem(s) should include which specific area of support is required as well as the desired timeframe for response. For example, do you require a Support Call within the next 12 hours or a One-on-One Training Session within the next week?

Each candidate should make it clear what they require so that the best possible solution can be created by Nubis Aviation Training.

Each support package shall have a validity of 1 year from the date of confirmation of initial payment.

4. PAYMENT TERMS & OTHER

4.1 Payment Terms

The preferred method of payment is via bank transfer although Nubis Aviation Ltd also accepts credit card transactions.

Payment terms for support packages are 100% of all fees upfront. Should a candidate wish to pay monthly installments for support packages and/or resources then this will be possible as a 'pay as you go' scheme only via a credit card payment when the credit card has more than 12-month validity.

The following terms apply to 'pay as you go' schemes;

- 'Pay as you go' is only acceptable for PDF study and in conjunction with the Advanced Support package or above.
- A \$500 hold will be placed on the candidate's credit card until the payment amount has been paid in full.
- If a client wishes to purchase the physical books or other resources also, a 'pay as you go' scheme can be used but a minimum 50% payment will be required upfront and hold on the client's credit card will be used.
- Modules will be released one at a time as payment is released from yourself on a monthly basis.
- No more than 2 modules will be held in reserve. For example, if you are to pay for Module 1, we will only give Modules 1 & 2 until part of the payment is made, then we will release Module 3, so you will always have 1 more module than paid for at that time.
- A minimum payment of \$40 will have to be paid on a monthly basis.

4.2 Pricing for Additional Resources

Nubis Aviation Training declares that they will work in the best interest of the candidate for all matters of support. If a candidate requires self-study material the pricings are as follows;
